I. INTRODUCTION

The Rainbow Municipal Water District (“District”) is requesting sealed proposals from interested California State licensed Civil Engineering Firms, or California State licensed Civil Engineers (“Consultant”), authorized to produce design drawings for as-needed civil engineering services. The District intends to enter into a contract(s) with one, to three Consulting firms, with an anticipated contract amount of \$75,000.00. This Request for Proposal (RFP) is issued to invite Consultants to submit proposals for as-needed civil engineering services for the District. Please review the RFP fully, complete all response sections, and submit the proposal in accordance with the Submittal Requirements sections of this RFP.

The District reserves the right to cancel this RFP at any time and for any reason without any liability to any proponent or to waive irregularities at its own discretion. The District reserves the right to accept or reject any or all bids.

II. BACKGROUND

The activities and operations of the District regularly require services that must be performed by California State licensed engineers. Some of these services are relatively small in nature, or require a rapid turnaround, rendering the traditional process of “RFP-Proposal-Award” undesirable.

III. PROJECT SCOPE OF SERVICES

The District is looking for a Consultant that performs high-level professional engineering services, including civil engineering related to a municipal water agency. The ideal Consultant must excel at customer service, and possess a high degree of technical expertise in engineering related to pipeline design, pressure stations, sewer design and other typical design services utilized by a water and sewer agency. It is anticipated that the selected civil engineering firms would have sub-consultants in electrical engineering, mechanical engineering and surveying. The District will issue Assignment Letters, as required for specific services outlined in the proposed scope of services described below:

1. Perform engineering design for District Capital Improvement Projects, and other District projects. Examples include, but are not limited to:
 - Minor grading and drainage for a district facility
 - Preliminary estimates for providing diesel generator backup to pump and lift stations
 - Short/small sewer or water line projects of low-complexity
 - CIPP project contract documents for straightforward projects in rural areas
 - Simple pressure station layout and design
 - Provide engineering drafting services to the District
2. Perform engineering design services, either under the direct supervision of the District Engineer, or independently.
3. Perform computer mapping as directed by the District.
4. Prepare concept-level project estimates as directed by the District.
5. Perform engineering analysis review as directed by the District.
6. All services shall be performed in accordance with current applicable local, State, Federal, and District regulations and ordinances, including, but not limited to, the Subdivision Map Act and the Professional Engineers Act.

IV. MANAGEMENT APPROACH

1. The Consultant shall work as a District consultant, and as such, will be perceived by the public as a District agent; therefore, the Consultant's staff must reflect the professionalism and courtesy of a public employee when dealing with the public.
2. The Consultant shall provide copies of all correspondence records and reports to the Engineering Department.
3. The Consultant shall invoice the Engineering Department for services rendered in a manner consistent with District regulations.
4. The District will collect all fees in connection with the Consultant performing the work set forth in this proposal and under no condition will such fees be collected by the Consultant.
5. Consistent with the authority contained in the law, the Consultant shall have the decision authority consistent with and necessary for the timely and proper enforcement of the laws and ordinances assigned to the Consultant for enforcement, and such decisions shall be consistent with the wording of the regulations.
6. The Consultant shall provide its own office space and clerical support at its sole cost and expense. Specific accommodations to the Consultant by the District may be permitted on a case-by-case basis, if such accommodations are of no cost to the District.
